

**Junior - Beginner
Message of the Week
GOOD ATTITUDE**

Success in life is determined by attitude more than anything else! In fact, nothing is more important than attitude. During this cycle we will be discussing how to develop the basic attitude for a great life. Consider the following connection between attitude and results:

Poor Attitude = Poor Results

Good Attitude = Good Results

Great Attitude = Great Results

What does it mean to have a good attitude? Simply put a good attitude means to obey cheerfully and be polite. Why is a good attitude important? When we have a good attitude we will be more successful, have more friends, and our parents will be proud of us. One example of having a good attitude would be answering your mom in this way when she asks you to do something, "Yes mom, I'll be glad to". Practice using this response no matter what the request might be, homework, test, project, etc.

Over the next 5 weeks we will be repeating a success phrase. The goal is to recall the phrase when you need strength and direction when at home or at school. The success phrase for the next four weeks is: "My Attitude Determines My Altitude." This means that our attitude determines how far and how high we will go.
